# THE Twitter feed for Peak District riders.

**@KoftheP** is about sharing live(ish) trail updates from across the White and Dark Peak.

It's simple. You ride, you tweet.

If you've been out and hit an impassable bog, fallen tree, ice, flood, swamp, angry bull or bike traps(!), tweet an update to **@KoftheP** and you'll let hundreds of others know what to look out for.

You'll also be protecting the Peak from bike related damage - doing your bit to protect the place you love to ride.
